

Hi Herbert,

A couple of days back I came to your store with a Red Adidas jacket and I presented you with a very complicated piece of design which I requested to be printed onto the jacket. I went to a couple of printing houses and they said it would be too complicated to print out the design that I had wanted. However IE gave me your word that you would be able to do it. Within a couple of days I received a call from Susan saying that she had completed my jacket. It was truly a work of art. I cannot being to say how very happy I am with outcome. Thank you so very much.

Regards,

Preetha Damodaran
